

HOLLOW DRILL BIT FHD SDS PLUS IV/SDS MAX IV

For drilling with low dust as well as efficient & approved anchoring

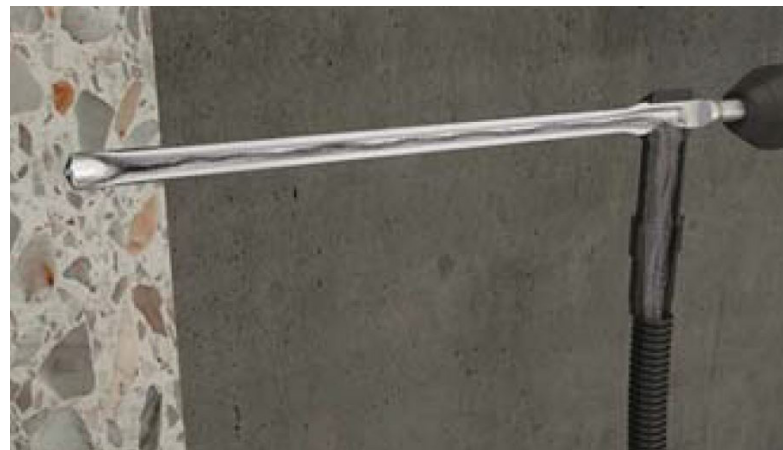

The fischer hollow drill bit FHD enables drilling and drill hole cleaning in one single step.

The dust on a construction site can be reduced enormously; preventing the end user, as well as the environment, from being exposed to drilling dust.

The wear mark on the drill head enables easy identification of the wear limit according to PGM®. This drill bit is ideal for drilling overhead holes and in enclosed spaces.

**“Dust on a construction site can
be reduced enormously”**

Functioning

- The drill dust is evacuated directly at the drilling tip due to the vacuum drill system and the hollow cylindrical shaft.
- The hollow drill bit FHD Plus and Max has to be used in combination with a Class M or better vacuum cleaner.
- The hollow drill bit FHD Max works with standard Max drills, and the FHD Plus works with standard Plus drills.

Applications/ Building Materials

- For drilling holes with low dust in combination with chemical and mechanical anchors.
- Ideal for sensitive surroundings where dust should be avoided.
- To create approval-compliant drill holes in: Reinforced concrete / Concrete.
- Also suitable for: Solid brick / Solid sand-lime brick / Natural stone

All advertised product pricing excludes GST & Delivery. Next morning delivery available for stocked items to Sydney metro area Mon-Fri when ordered by 5pm

DRILLING DUST EXTRACTION & HOLE CLEANING SYSTEM

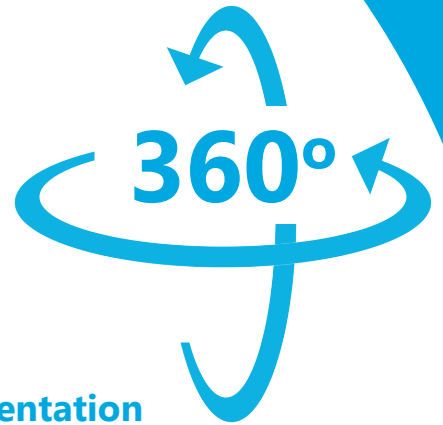

Ideal for dust free drilling up to 52mm in diameter and unlimited depth

DEWALT

Flexible hose allows for 360 degree vertical & horizontal orientation

Features

- Compatible with all professional dust extractors
- Durable rubber seal allows for adhesion to most masonry surfaces
- Interchangeable drilling heads for optimum dust removal
- Includes hole cleaning nozzles to expose the full drilled depth and to ensure maximum adhesion of anchor

Includes

- 2 x hole cleaning nozzles
- 2 x interchangeable drilling heads
